

Vitalii Kuziutyn

Ceiling Fixer & Dryliner

London · +44 7940 245624 (WhatsApp / Telegram) · vitaliy.1988.1@gmail.com · vitaliikuziutyn.co.uk

PROFILE

Self-employed ceiling fixer and dryliner with twenty years on London commercial fit-outs, working direct for main contractors and fit-out firms, alone or running a small team. Suspended grid and SAS metal ceilings, MF plasterboard, perforated metal tile, margins and shadow gaps, drylining and metal stud partitions. Works to architect's drawings, sets out with laser levels and coordinates with M&E above the line. CSCS Gold supervisory card, IPAF 3a/3b, CPCS A17 telehandler and CITB SSSTS. Own tools, own transport. Available across London and the South East, and away when the job needs it.

KEY SKILLS

- **Suspended grid ceilings** Exposed and concealed grid, mineral plank and metal tile
- **SAS metal ceilings** SAS International systems, including SAS150 clip-in tile on concealed grid with hinge-down access
- **Perforated metal tile and rafts** Acoustic systems, floating rafts, integrated linear lighting
- **MF plasterboard ceilings** Flat, stepped and curved, bulkheads, upstands and shaped rafts
- **Margins, upstands and shadow gaps** Double-skin margins, shadow gap trims, cut and held true to the line
- **Drylining and metal stud partitions** Metal stud framing, boarding, moisture-resistant and acoustic board
- **Taping and jointing** Joints taped, filled and sanded to a seamless finish on walls and ceilings
- **Setting out from drawings** Architect's drawings, schematics and specification, set out with laser levels
- **Working above the line** M&E coordination, ductwork and containment boxed in and boarded around

CERTIFICATIONS

- **CSCS Gold Card** Occupational Work Supervisor, Level 3 NVQ Diploma. Qualified to run a gang on site as well as work on the tools. Valid to April 2028.
- **IPAF PAL Card** Powered Access Licence, categories 3a (mobile vertical) and 3b (mobile boom). Valid to June 2029.
- **CITB SSSTS** Site Supervision Safety Training Scheme, Site Safety Plus. Current.
- **CPCS A17** Construction Plant Competence Scheme, category A17. Certificated to operate telescopic handlers.

EXPERIENCE

Self-Employed Ceiling Fixer & Dryliner

London · January 2010 – Present

Contracts taken direct from main contractors and fit-out firms. High-end commercial work: office floors, reception spaces, lift lobbies, and the shaped, lit detail that has to be set out properly or it shows from the floor.

Citi Tower, 25 Canada Square, Canary Wharf

Main contractor Overbury, architect WilkinsonEyre

The £1.1bn refurbishment of Citi's 42-storey European headquarters. Suspended and MF ceilings across core office floors, reception and lift lobbies, worked to finishes that are inspected from the floor rather than the drawing.

Main contractors and fit-out firms

Overbury · Tetris London · Pace Interiors · Amadeus Design & Building · DDC · Laser Essex

Suspended ceiling, metal tile, MF plasterboard and drylining work on office, reception and lift lobby fit-outs across London. Full contract history and dates available on request.

LANGUAGES

English, Ukrainian, Russian and Polish – fluent in all four.
